Reinvent the future of Healthcare Appointments by engaging Patients and Providers towards more positive health outcomes. Now Patients can get notified of appointment availability that matches their own schedule.

PROVIDERS

ADD FACILITIES & STAFF

A Medical Business registers with the Platform and sets up a profile by adding the Facilities and Staff. Each Staff member in turn registers with the Platform.

POST & FILL APPOINTMENTS

Providers can post available appointments to the Platform so patients can seek them or let the Platform automatically fill them for Providers via a Patient Short Call List.

REAL-TIME NOTIFICATIONS

Provider can choose to receive useful notifications when patients request certain actions on appointments.

CHAT WITH PATIENTS & STAFF

Providers can securely text chat in real-time with patients as well as their own staff. No more phone tag and lost communication.

PATIENTS

CHOOSE DOCTORS

A Patient registers with the Platform and sets up a profile by selecting the Doctors and Care Providers who see the patient on a regular basis.

CANCEL, RESCHEDULE, BOOK

Patients can cancel and reschedule existing appointments or book available appointments. All using a simple and unified user interface. As a bonus request to be added to your Provider's Short Call List.

INSTANT NOTIFICATIONS

Patients can choose to get notified of newly available appointments with their Providers which they can request to book. Get notified for upcoming appointments.

CHAT WITH PROVIDERS

Patients can securely text chat with their care Providers and Medical Practice Staff in real-time enabling direct access without any barrier. Patient Engagement finally enters the 21st century!
